

Radically advanced and most sophisticated spectra biometric device so far, innovation at its best.

Key Features

Biometric Attendance Device

Get distinct advantage of field proven fingerprint authentication technology for recording employee attendance. Large sized appealing TFT display with capacitive touchpad. Option of personalizing the display screen by adding company logo in specified display area.

IP65 Weatherproof Housing

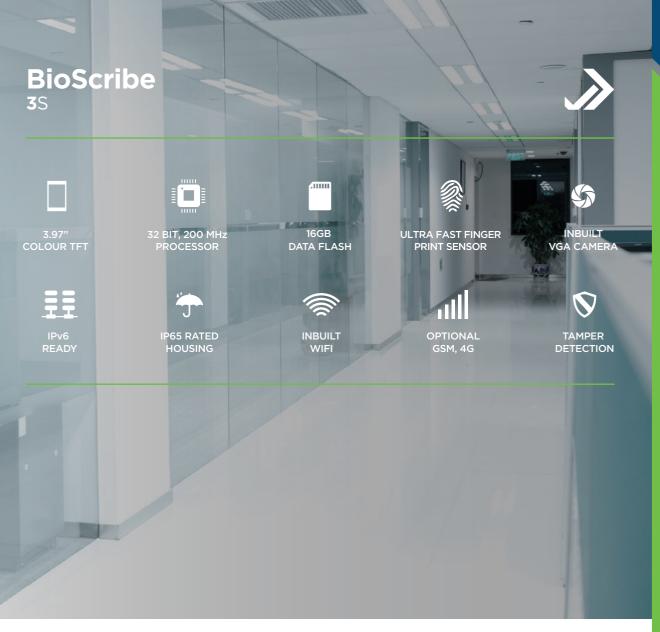

Product enclosure is designed to meet IP65 standard of protection. This gives complete protection from dust particles, rainwater, airborne pollutants and such other environmental threats.

Multiple RFID Technologies

Supports popular RFID technologies with inbuilt EM reader and option of having Mifare, HID iClass and HID Prox readers. Fingerprint template can be stored on Mifare card to facilitate data portability & unlimited users.

Field Upgradable Software

Facility to onsite update device software through Ethernet interface. The product updates can easily be applied without the need of removing device and sending it back to the service center.

Data Communication

This device also supports IPv6 protocol making it future ready. Wifi enables the device to hook up with Wifi network for instant data transfer. In addition it supports host of protocols such as FTP, HTTP, NTP, SNMP & SSL

Rugged Optical Fingerprint Sensor

Equipped with most reliable fingerprint matching algorithm to ensure unrivaled accuracy with best verification results. Auto finger update helps in keeping track of finger changes over the period thus takes care of dry, wet and swollen fingers.

Inbuilt Camera

The device has an inbuilt VGA camera to capture the images. It can be configured to capture the image on certain pre-defined events e.g. an invalid attempt to access the restricted area can be captured and used for verification.

Tamper Proof

Device offers security and generates alarms in case someone tries to fiddle with it. The alarm can be in soft mode e.g. on computer screen or alert on a predefined email.

BioScribe 3S
